

Vertical garden sizes with VerticalGardenUSA

Please compare the cost to coverage. VerticalGardenUSA is the lowest cost by far. As you can see, it takes approximately **6** VerticalGarden units to cover **12.2** sq feet.

When spacing side to side you can plant towards the ends, then separate the units by up to 4", giving full plant coverage!

Spacings between the VerticalGarden modules are 2". Space further apart for taller plants.

Seven Units 85"

Eight Units 96"

More than 8 Units add 11" for 9, add another 11" for 10 etc.
